## Experience

### Frontend Developer Internship | Frontend Simplified

Jan 2023 - Apr 2023

- Transformed a static HTML, CSS, JavaScript, and React.js Single Page Application(SPA) into an interactive UI by incorporating fluid animations using third party libraries, transitions, and responsive carousels, enhancing user experience and engagement
- Demonstrated deep understanding of API integration, processing requests with Axios to dynamically fetch and display data from a cloud server, optimizing performance and responsiveness
- Skillfully employed advanced techniques like skeleton loading states and pagination to improve perceived loading times, efficiently organize large data sets, and enhance overall usability
- Exhibited expertise in dynamic routing, enabling smooth navigation between different sections of the SPA without unnecessary page reloads, contributing to an uninterrupted user experience
- Utilized Git version control and thrived in a collaborative team environment using the GitHub interface, effectively managing code versions, handling merges, and resolving conflicts
- Adapted to remote work demands, leveraging effective communication and time management skills to consistently deliver results and exceed expectations as a frontend software engineer intern
